

In Great Britain, the term *One Stop Shop (OSS)* means "the office through which people can get in touch with local authorities".

The main idea of this concept is that all services to citizens are provided through a single point of contact.

OSS on the University

This concept implies that there is a unique point of contact at an university intended for companies seeking to collaborate with higher education institutions.

Forms of cooperation:

- Training delivering
- Research
- Other specialized services

What is One Stop Shop?

Small businesses help to identify their own needs and develop partnerships with universities and

Most of the One Stop Shop is useful in connecting with universities!
